A pleasant party was enjoyed by the young folks at the handsome new residence of Chas. F. Culver, Friday evening of last week.

The waterworks and a majority of the city water takers are still at "outs," and the weather clerk takes sides with the citizens. Something has got to give way.

Saturday a horse ran away with two sons of B. Negbaur. A buggy was smashed to smithereens, and Ben's horse lost his reputation for gentleness, but that was all the damage done.

Hugh Boyle was down from fair Albion, Saturday. He maintains there are no flies on the broad acres of his township—nothing but wheat, corn, rye, oats and the finest kind of prospects.

The roads between Great Bend and Ellinwood are in a bad condition. We have remarked this so often that it ought in some way to get to the attention of the men whose duty it is to repair the roads.

Our city young folks are developing a taste for archery practice. The girls always did have a sort of a broad gauge banking after "beaux" of the right kind. In fact they do not take "anarrow" view of anything.

The creamery and cheese factory question has been talked of by quite a number of our citizens lately, and there seems to be quite a number both in town and in the country who favor the idea of getting a plant at this place. With this idea in view we have taken it upon ourselves to negotiate with one or two eastern firms to see what it will cost to get a plant here. We expect a reply by letter or in person in a very few days, when we will make it known to all. This is a matter that is of vital importance to every farmer for miles around Pawnee Rock and every man should help to urge it along, and make a success of it.—Pawnee Rock Leader.
